## American-Scottish Foundation®

The mission of The American-Scottish Foundation®, an international not-for-profit organization, is to establish links and strengthen ties between Scotland and the United States, through the pursuit of contemporary social, cultural, educational, and business activities.

The mission remains as relevant today as when ASF was founded in 1956 by Lord Malcolm Douglas-Hamilton - to champion the extraordinary relationship between the peoples of Scotland and the United States - a bridge between the two great countries - seeking to strengthen and support the future of the Scottish American diaspora, and its legacy.

## University of Aberdeen

Founded in 1495 and the fifth oldest university in the United Kingdom, the University of Aberdeen has a proud tradition of academic excellence which continues into its sixth century.

Multi-million pound investment has provided students and researchers with some of the best facilities in the UK. The University owes much to the determination and vision of a handful of visionaries and pioneers, including a distinguished list of scholars who, in their own unique ways, helped to shape the University into the world-class institution it is today.
